## ABOUT ME

With over 20 years of experience navigating the Seven Seas, I am a seasoned Unlimited Yacht Master specializing in yacht operations, fleet management, and international yacht deliveries. My career began as an industrial diver, and over the years, I have honed my expertise across the Aegean, Marmara, Black Sea, Mediterranean, Indian Ocean, Florida, and the Bahamas, mastering the challenges of diverse maritime environments. I pride myself on being a hands-on leader with a deep understanding of engineering, shipyard management, refits, and warranty operations. My extensive background in industrial diving has provided me with crucial problem-solving skills in maintenance, salvage, and search & rescue missions. Navigating through the Seven Seas has shaped me into a captain who values precision, teamwork, and a proactive approach. I am always ready for new challenges, seeking to bring my expertise to innovative yacht projects while ensuring the highest standards of safety, efficiency, and operational excellence.
